“The power of your message penetrates quickly into issues of the heart as well as into the role and responsibilities of the shepherd...”

The Leader's Shield

The Leader's Shield, a Biblically-based leadership model, is grounded in the intersection of three pivotal elements of leadership. By shepherding well, you can fulfill your calling as a leader and act as a shielder of those you lead.

Discover how the God-inspired concept of shepherding others will change how you parent, pastor, supervise, manage, and influence those in your life. Shepherding is a universal Godly leadership principle that will challenge you to live into your calling as a leader. Once you experience a Presence Point workshop, and fully understand how shepherding applies to your life, you'll never look at leadership the same way again!

“It's right, it's real, and it's convicting.”

PRESENCE
POINT®

“Shepherd leadership is all about servant leadership in action. Everyone should recognize that their job is to provide, protect, and be present for their people. Applying this model will make a difference in their lives and yours.”

—Ken Blanchard, Ph.D.
